ap21 Verbara, TIECT III THE following Resolutions of the Pilot Board is published to general information. By Order of the Board,

Chairman

The Basque Almein laving been on the night of the 22nd March, 1872, stranded on the North-West end of Gosin Island while in charge of Pilot Alexander McKinnon, and the P.1 Boundbaring considered the disaster in question, find that the land Pilot stranded the Almatia by attempting to take her through Plumper Page when he was not certain of his position, and that he was guilty of negligence in an much on he did not exercise the numost diligence and attention in the prosecution of his daty.

The Board have therefore suspended the Licence of Pilot McKinnon antil the lat July now next ensuing.

machinery, the profits of the company will be very large.

The quantity of sagar imported into this Province for the year ending June 30th, 1872, was valued at over \$100,000; the importation of Molasses, during the same period, amounted to \$18,000. It will, therefore, be seen that a ready market is open for all the sugar and molasses the company can produce. The pulp, or refuse, composes the best kind of food for fattening cattle during the winter months, when the highest prices are obtained for beef, muiton, &c.

The bost of labor, it is calculated, will be as low as in California, while the fuel and other materials, including the lumber for building, will be much lower.

As the company proposes to commence operations on a limited scale at first, the Capital Stock has been fixed at \$50,000, while power is reserved to the Sharchelders to increase the working capital to \$100,000, if considered advisable.

43 Letters of Allottments can be obtained from the coverary of the Company at New Westminster, and rom the Bank of British Columbia, or Messra, Robertson t Johnson at Victoria.

umbia, a copy of a letter from the Governor-General's Scoretary, covering the reply (also enclosed) of his Excellency the Governor-General to the Address of that Body, congratulating his Excellency on his assumpt on of the Government of Canada.

(Signed) JOSEPH HOWE. Mr. H. C. F etcher to the Secretary of State for the Provinces

Governor-General's Office I have the honor to enclose herein His Excellency the Governor-General's reply to the Address of the Legislative Assembly of British Columbia, and to request you will have the goodness to forward it to the Lieutenant Governor of the Province.

Gentlemen of the Legislative Assembly of Province of British Columbia:-

In tetureing to you my sineere thanks for the cordial expression of gratification at my appointment to the Government of the Dominion, conveyed to me in your Address, I desire it useere you of the sincere pleasure it affords my to witness the proofs of the devoted loyalty to the Throne which are conspicuous throughout the Dominion; no less on the stores of the Pacific than on those of the Atlantic.

I trust that I may, at so distint time, have an opportunity of visiting British Columbia and making myself better acquainted with a portion of the Dominion, soon I hope to be broug t in closer connection with the Eastern Provinces. In the meanwhile I shall watch with dee

the development of its resources, feeling sur that your earnest attention will be giren to whatever may conduce to render the future of the vast country West of the Rocky Mountains commensurate with the hopes that are entertained regarding it. You may rest as sured that no effort will be spared on my par sured that no effort will be spared on my part to further as far as lies in my power the moral and material prosperity of the Dominion, and my hopes of success are encouraged by feeling myself united in these labours with eminent persons, like yourselves, who are devoting their best palents and energies to so oble an oject. Government Bouse, Ottaves, 9 A

BOUTH AMERICA The press of Chile, from which we have dates to the 1st April, comments unfavorably on the way in which the Peruvian Colonels amio and Zevalios met their death in Peru, and thinks the possibility of such an occur rener does not say much for the state of civiisation in that Republic.

The relations between Chile and the Argen tine Republic are becoming of a more friendly

The grandson of Lord Cochrane, who came from England to be present at the inauguration of the statue of his illustrious grandsire, arrived too late for the ceremony. The Pacific Steam Navigation Company

camer Kenilworth was ashore at Port Grappier, in Smyth's Channel, with a hole in one of her compariments. Assistance had been sent to her from Valparaso. It was exected that both vessel and cargo would be The steamship Republic, of the White Sta

ine, made the voyage from Lota to Liverpoo n 34 days.

The steamship Tropic picked up a boat at sea, with two men and a woman in it, the sole survivors of the J. W. Riwell from Liverpool to Valparaiso with coal. She took fire and blew up. The people had been two months and a half in the boat. The tron-clad now constructing in England for the Chile Government is to be called the

LILEDIN TANKER VO 1000 This republic, according to the news of the Sto via Tacoa, is taken un with the question of the Presidential election. There are so many candidates in the field that it is hard to say who will be elected. Adolfo, Ballivian, altohough supported by Government influence, bein absent in London negotiating a loan, was losing ground on that account. General Quevado has a large party in Cochabamba, and other provinces.

The elections were to take place on the 2d but it was thought that the Assembly would have to decide who should be President. The question of the mines of Aullagas which led to the death of President Morales, had been referred to the Supreme Court. ARGENTINE REPUBLIC.

The Jordenist party attempted to invade bleass of Oache Corrientes, but was disarmed and sent into when by the Superior of Corrections of Cor

### The Pacific Bailway Committee.

The Grits seem to be as little ratisfied at the appointment of a committee to enquir-joto the charges contained in Mr. Hustingtod's motion as they were when that mot tod's motion as they were when that motion was so ignominiously bustled out of the House. Nor did we wonder at this. The rote cart in the selecting of the Committee shows their waning strength in Parliament, Their first minority was 15; their second 25; their third 31; their fourth 33 Tuesday's rote was as such a division indicating the strength of parties as though the yeas and cays were taken upon a substantive motion. eavs were taken upon a substantive motion Bvery member of the House had but one vote. The Government members voted for Government men; the Opposition members for Opposition members for the committee, Messrs. A A. Dorion and Blake . The Gov ernment side chosen three able Ministerialists from their number, Mesers J H Comeron, Blanch-t, and McDonald (Pictou). The en-tire Government vote adds up 104; the entire Opposition vote 71; making the Government majority 33. The increase is steady. No wonder the Goits are glum, moody and des

ponding. Unless they display more ability and better tactics they will hardly be strong enough Benzef-rward for effective service It was amusing to hear the Grit leaders endeavouring to break the force of their fall, by alleging that Mr. Huntington's motion ras not one of non-confidence. . We notice that Mr. Huntington bimself did not attemp to join in the silly pretext of Messrs. Blak-and Mackensie. He had already made him-self sufficiently ridiculous and the soft sawder' of the On ario leader could be no compensation to him tor the humiliat ng characacter of his efeat. We think we bave shown satisfactoril that the way in woich the motion was put constituted it one of non-confidence. If that is not sufficient to justify the ground which we have taken, we refer to be distinct decla-ration of the Party's organ that the motion was one of want of confidence, and that no other business could be transacted until i was disposed of, and to the circumstances fully conscious of, that he voted for the resolution, knowing it to be, and to have been proposed as, one or want of confidence in the Administration It would have been mor reditable to Mesers Mackenzie and Blake to

bare made their great discovery several days That the Grits are not pleased at the ap pointment of the Committee is evident from their continued crossness. "Any attempt," according to his own ideas of ejegance and propriety. Perhaps the astronomers might settle the question But is a stainly seems rather comic to insist upon congratulating only be regarded as an indication of conscious guitt on the part of the occused Ministry." How sore the Grits do feel that they have not been permitted the luxury of repenting did nameson a damaging accusation, instead a having been nailed to the necessity of proving it I Bir John Macd an d's straightforn ar conduct—his read ess not only in proposing the Committee, but in giving to it extraordiary powers, ought to relieve him from the pos-foility of such imputations as his de-pipossibility of such imputations as his despi-cable newspaper opponent continues to in-dulge in. Behind them both there is a great public, however; and, though the journal may be wanting in manliness, bonour, and

The following is from the Sydney Morning Street in your highly prized journal as settler on the Bonaparie, to contradict a station ment if saw in the Colonict of the 18th of April, headed "The Boarding School," in makes this broad statement upon our "own makes this broad statement upon our "own if now ledge." Now sir, what that gentleman's knowledge." Now sir, what that gentleman's knowledge may amount to on some questions I do not see fit to analyze, but of his knowledge of British Columbia outside of Victoria and New Westmingter, judging him by his Sonain School gricks. I must confess that I have a very limited opinion of it indeed. Probably his ideas are clearer on a clambed in James' Bay than his knowledge of this seighborhood; and yet this wise-acre modestry dictates to the Government where it should expend the public m ney. He further adds, "that by such a freak the Board of Education would be placed in a false position, as he believes they ananimously selected Kamloops." Now if that honorable body made any such Selection, I am very sorry, and very much fear they have allowed themselves to the indeed they have allowed themselves to the fear the Sydney Menting is from the Sydney Menting is from

location of Cache Creek, don't hesitate for a moment in saying that if the Board of Education choose any other place is preference to Cache Creek, they are allowing themselves to be influenced to a certain extent. I do not consider the control of the town was partially submerged in like manner, and several other houses in low situations were much damaged. Traffic on the for one moment say that this is bridge has been resumed through the prompthe case, as I do not know that titude of persons engaged in clearing the the Board of Education ever made timber that encumbered the floor, and for a

direct the Government where it should expend the public revenue. The Colonist with a lits cogent reasons besitates to express a eson why Cache Creek is an unsuitable place Why, sir, if the gentleman who constitutes the "our" of that paper would cease dreaming over nonsensical editorials for a few days, and take a trip into British Columbia proper, he would wake to the knowledge that Cache Creek has unmistakeable advantages. that Cache Creek has unmistakeable advantages over any other locality for the site of a central school; it is about equal distance from Lillocet, from Kamloops, Lake Laffache and the Nicola Valley; at the junction of two of the most important waggon roads in the country, where two mail lines meet; and connected by telegraph with Cariboo and the subside world; where medical assistance could be obtained in a few bours; having a cl. mate unsurpassed for salubrity by any in the world; and a neighborhood containing as many settlers as any in this sparsely settled. as many settlers as any in this sparsely settled country; where provisions of all kinds pro-

Auckland. March 20th — The Dakota arrivduced in the Province, are in abundance at
cheap rates. This neighborhood is quite alive
to the necessity of having a school here, and
through the representatives of the district
have asked for an appropriation for school
purposes here. Now, why the Colonist
through cogent reasons only known to "ourselves" should attempt to make the Government take the "back track" on us is some
thing, which if worth notice, we here should
like to know. But we suppose the Government is sufficiently stable to adhere to its
conclusions, the denunciation of the Colonist
to the contrary notwithstanding. We have
sere so apprehension on this head, and I
think that any Govert ment that attempts to
please the chameleon sheet that assetts this
is not a central location, would have a good
time turning its cont. It would have a good
time turning its cont. It would have a good
time turning its cont. It would have to be
blue one day, and very green ever after. I
have seen and conversed with many of the
settlets here, and I think that if recessary,
a very considerable bonus can be raised to
assist in the erection of subsle buildings for
school purposes, and the ground freely
donated as well. I would like to know how

Auckland. March 20th —The Dakots arrived here on March 3th, and was the first of the
American steamers to come alongside the
wharf. She was the bearer of the disheartening intelligence—whether correct or not yet
remains to be learned by us—that Congress
had refused the subsidy to Webb's boats, and
that it was generally surmised the trip then
about to be made by the Moses Taylor would
that it was generally surmised the rip then
about to be made by the Moses Taylor would
that it was generally surmised the rip then
about to be made by the Moses Taylor would
that it was generally surmised the rip then
about to be made by the Moses Taylor would
that it was generally surmised the rip then
about to be made by the Moses Taylor would
that it was generally surmised the rip then
about to b assist in the erection of suitable buildings for school purposes, and the ground freely donated as well. I would like to know how the Board of Education discovered the unsuitableness of Cache Creek for a school location, bleness of Cache Creek for a school location, but that it is likely to be large opened by w.y. of y ney.

The Sydney Morning Herald suggests that the Government should charter one of the A. S. N. steamers for the temporary California. which was prepared to invade Uruguay, was also disarmed and sent into the interior by the Brazilians.

When by the Superintendent's own report of last tall, he especially named Cache Creek as a desirable location. I hope it will not for a moment be supposed that the Superintendent's on a feet's anising here been changed by his

dent's opinions have been changed by his personal friendship for any one at Kamloops. I should be sorry to suppose for a moment that individual friendship would influence any officer of the Government in a matter so mportant as selecting a site for a Central School. Yet if the Superintendent has been an adverse advocate for us here, some of the friends of education will be very likly to take a wor dly view of such advecacy, and insist that such a de ision was arrived at more on mercantile than on educational grounds. In the Week y Colonist of April 23rd I see the Government have selected a corner of Mr. Semlin's rauch as a site for the Central School. Now as that gentleman's ranch has

many corners, if the editor of the Colonist doubts the competency of the Board of Education to select the most proper que, I beg him to refer that honorable body to yours obediently,

PHILIP PARKE.

### A Gigantic Pamily.

BONAPARTS, April 29th, 1873.

The facts appended appear in the London Medical Record:—"Perhaps we may make no zeuse for departing from the custom of our not noticing exhibition when we call the atention of our renders to the most remarkable developement of adipose t saue which has proin one family. It is interesting, as testing the laws of heridity, to observe the peculiarities of the O'Neal family, of which a careful examination by a writer in the Medico Chirurgical Review leads him to vouch for the accuracy of the exterordinary measurements we give. They are natives of Ireland, Queen's Co., 47 miles from the city of Dublin. They are born of respectable parents hard working farmers. The father stood 6 feet, and 1, weighed 27 stone. The mother is 45 years of age, stands 5 feet 2 inches in beight, measures round ber arms 26 inches, across her shoulders 5 feet, round her waist 5 feet 6 inches, and weight the enormous weight of 21 stene. Her eldest son i- 25 years of age, stands 6 feet 2 in-ches, weight 18 stone 2 pounds, and at the present time he is a Lite Guard. Miss Ann O'Neal, the eldest daughter, 20 years of age, stands 5 feet 6 inches, and measures round the arm twenty-seven inches, across the should rose yard and a-baif, round her waist eight feet, and has the enoromous weight of thirty-nine stone, Her youngest sister is twent-nine fuches, across her shoulders three feet, round her waist six feet, and weighs twenty-three stones. The eldest daughter is as may well be imagined, on account of ber to be un asy on her legs, and is compelled to lean appagainst the wall for support. The vaccination marks on her arms, having increased with age and development of adipose-tissues are as large as ordinary saucers. As there is no padding or artificial metho employed to enhance the enormous weight of the specialus, the dispreparation which strikes the observer between the gigantic bodies and the relatively small but absolutely large cranic is simply tarriller. The hands are coarse and large buses. In Ann D'Nest

(affectionately and absurdly named 'Lily' by her smaller relatives) the malar bones are normous and the mouth is much under-hung by the forward projections of the lower jaw Although the mother shows signs of re-cessive alcoholic consumption, their is no di-Gro. Manager is still to be found at his old stand, Yates street, opposite Mr. Reynold's butcher shop, with a large assortment of house furnishing goods. Call and examine his steek.

Manager is still to be found at his old honesty, that public will not be slow to do justice to the i irst Minister, and to estimate sease noticeable or complemed of; and the subjects do not appear to suffer from any other affection than the inconvenience of having the steek.

loops." Now if that bonorable body made any such selection, I am very sorry, and very much fear they have allowed themselves to be influenced by the advocacy of a few men, but the Board of Education should have taken such advocacy at its true value. They should not allow themselves to be made a logrolling instrument of by any parties, as people in the upper country who are acquainted with the location of Cache Creek, don't, hesitate for a location of the location of t any such selection as the Colonist charges it time intercepted the free passage across with doing. A good thing it would be in the old country, for the Board of Education to delayed.

BANKERS:

BANK OF BRITISH COLUMBIA.

THE COMPANY IS FORMED FOR the purpose of acquiring the property known as the Belmont Factory, situate on Esquimalt Harbor, and the business carried on therein, consisting of Tahning, and Boot and Shoe Manufacturing, and of continuing the same:

The Tannery has every appliance for the axing of allot.

They water Power which is utilized for the conduct of Works, is all that could be desired, and could readily be increased to ten times its present power, if at any time required, either for the purposes of this undertaking, or for any other Manufactory. The supply is derived from Springs on the Estate, is very soft, in quality, add is never failing.

In fact the business is in thorough working order, and Mr. Switzer 's arrive as Manager of the Works will be retained upon terms favorable to the Company.

The Land consists of 546 acres, known as the Spring Vale Edute, some of which is o' excellent quality.

The Timber is of considerable value for Firewood, the situ tion being favorable for easy delivery.

The operations of the Boot and Shoe Manufactory during the past two years have been highly satisfactory.

The goods are specially adapted to the requirements of the Provincial trade, have given general estification, and at a profit successfully compote with the imported article.

The sales for 1872 amounted to mearly \$30,000, which, the sales for 1872 amounted to mearly \$30,000, which, and the principal is a provincing the principal is a profit successfully compote with the imported article. and at a profit successfully compete with the imported article.

The sales for 1872 amounted to mearly \$20,000, which, considering the short time the enterprise had been in operation, shows the favor with which the products have been received.

The importations of Bootz and Shoes as declared at the Custom House for the year 1871 was about \$405,00, representing a selling value, after adding duties, etc., of any \$150,000. The importation for last year fell off considerably, the decrease being doubtless partially occasioned by the local production. In addition to the demand for Boots and Shoes, as evidenced by the Customs House returns, the sales of Leather produced at the Tannery have to be taken into account, when considering the entire field for the operations of the undertaking.

In the entire field for the operations of the undertaking.

The Tannery operations only commenced in August last, and as the tanning process involves a period of several months, the business of this legariment is in its infancy—a very superior arti-le is, however, being produced at low prices by an economical process, and, as there is no difficulty in obtaining an abundant supply of lides, the outturn will be sufficient for the supply of the general demand for harness, mill belting, &c. in addition to the requirements of the knot Factory.

The Belmont Boot and Shee Factory was the first enterprise of its kind established in the Province, and its having been so far carried on with success, is an assurance that, as population increases, very remuserative returns will be realised.

The value of industrial institutions to the well being of any country is indisputable, and as the hides produced in the Province are now being manufactured into leather, which in turn is made into boots and Shoe, &c., (instead of as formerly being exported and the manufactured articles in turn imported,) the saving to the country by the undertaking is sufficiently obvious. It is, therefore, not unreasonable to assume that the advantages which the prosecution of such a reproductive Institution insures will, aside from the remunerative sharacter of the business, have due weight with all who are in any way interested in the prosperity of the Province.

It should be remarked that this company will become
